

BMC-335EHY SHAVER

AN ELECTRIC POWERED SHAVER

The Blastrac BMC-335EHY is a heavy duty shaving and sawing machine ideally suited for large applications. The BMC-335EHY is a versatile machine, by changing the pulley's the machine can also be used as a standard scarifying machine. It's increased weight allows it to generate more efficient shaving and scarifying action. With variable speed, forward and reverse, this heavy-weight performer can be driven without the scarifying drum engaged. The BMC-335EHY shaver is almost dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of sawing blades and scarifying cutters, which give the opportunity to process any floor and specific application.

3000 RPM

1400 MM | 605 MM | 1075 MM

UP TO 80M²/H
ON CONCRETE
HYDRAULIC | 0-18 M/MIN

405 KG

FORWARD (PUSH)

12,1 KW | 400 V -50 HZ | 32 A
13,7 KW | 440 V -60 HZ | 32 A

SURFACE:
CONCRETE / STONE / ASPHALT

USER FRIENDLY

Easy to manoeuvre, minimum vibrations and everything you need to control the machines is within arm's reach. The handles and lifting eyes make it easy to transport.

CENTRED DOWN FORCE

All Blastrac scarifiers are built in a way that all the weight of the machine is centred in order to create a maximum down force on the rotating drum.

LATERAL DRUM LOADING

Blastrac scarifiers are especially designed so that the drum can easily be pulled out of the machine from the side, without having to move the machine.

PRECISE HEIGHT ADJUSTMENT

The working depth of the drum with cutting / milling tools is easily adjustable, and precise to the millimetre. This means no under-ground deterioration.

FLEXIBILITY

Utilize different blades for varying applications on surfaces such as concrete, stone, or asphalt.

GREEN TECHNOLOGY

Our scarifiers, like any other Blastrac machine, do not use any chemicals or waste valuable drinking water.
